Archive: This message is being viewed in an archive.

This is the company proposal with rationale for the choice of species between the rat and the mouse for the 2-year study. Yintak has previously reviewed the protocols for this study. The company has conducted a 90-day in the rat and the mouse and EPA has received these studies for review. RAD has reviewed the 90-day in the rat. Please review this proposal (at the very bottom of this message), if possible by 5/27/10. Rose

Subject: Species proposal for Chronic Toxicity/Carcinogenicity Study [OPPTS 870.4300]

Good morning Rose.

At the April 7, 2010 meeting with representatives from DuPont and the Agency, it was suggested that DuPont draft a proposal for species selection for Chronic Toxicity/Carcinogenicity Study [OPPTS 870.4300] [OECD 453]. I have attached a copy of DuPont's proposal for agency review and guidance.

If you have any questions, please give me a call.

Kind regards,

Jane Bradd-Andersen tel:302-999-2377 blackberry: 302-824-6288
